Factory Supply XH-46 46 Inch 26hp Zero Turn Lawn Mower, Gas Powered Commercial ZTR Riding Mower for Garden Park Farm Use

Technical Parameters:

Item No.	XH-46
HS Code	843319000
Engine Model	LC2P82F
Engine Type	V-twin cylinder,Air cooled ,4-stroke,OHV
Power	27HP (19kW) @ 3600rpm
Displacement	803CC
Cutting Width:	46"/Two blade
Cutting Height:	2.5-10cm
Forward Speed	11.2 km/h
Astern Speed	5.6km/h
Chassis Lift	15-gear knob control
Front Tire Size	11"× 6"
Rear Tire Size:	20"×8"
Drive Type:	Dual Hydro Static Drive
Grass Arrangement	side discharge
Drive mode	belt
PTO Clutch	Electronic clutch
Starting system	Electric start
Engine oil capacity	2.4L
Fuel Tank Capacity	13.2L
N.W./G.W.	270/320kg
Packing Size	208×145×89cm
Quantity	1 unit /ctn
Packing details	Export standard wooden box

Xinghu XH-46 46 Inch Commercial Zero Turn Mower, Gas Powered Zero Turn Riding Lawn Mower with Loncin Engine, 26HP ,Hydrostatic Zero Turn Lawn Mower for Large Yard & Professional Use

Commodity attribute :

Product Name	46 Inch 26HP Zero Turn Lawn Mower
Place of origin	Zhejiang, China
Item No.	XH-46/ BTW-46
Function	This zero-turn riding mower delivers fast, precise cutting for large yards, golf courses, commercial landscaping, and municipal greening projects.
Power source	Gasoline (Petrol)
Engine Type	4-stroke gasoline engine
Color	Red ,orange,customized
N.W./G.W.	270/320kg
Machine Size	1800 × 1250 × 1100 mm
Packing Size	208 × 145 × 89 cm
Packing Quantity	1 unit /ctn
Material	ABS + Aluminum + Iron

Highlights at a glance

- **Multiple Models Available:**Including Remote Control Lawn Mower,Brush Cutter,Electric Lawn Mower,Zero Turn Mower,Meets Diverse Mowing Needs
- **Versatile Terrain Adaptability:** Thickened Pneumatic Turf Tires + 25° Slope Capacity, Stabilizes on Potholes/Slopes, No Slippage on Complex Terrain.

Multi-Scene Adaptability: 42/46/54 Inch Wide Deck, Fits Yards/Orchards/Golf Courses/Municipal Greens, Balances Large-Area Mowing & Obstacle Avoidance.

High Efficiency with Loncin Engine: 26HP Loncin High-Power Engine, Strong Stable Power, 3.2 Acres/Hour, 40% Higher Efficiency.

- **Comfortable & Effortless Operation:** Shock-Absorbing Seat + Ergonomic Levers, Low Vibration, Easy for Beginners.
- **Durable & Easy-Maintenance:** Manganese Steel Body + Anti-Rust Coating, Maintenance-Free Core Parts, Convenient Daily Upkeep.

- **Competitive Edge:** Chinese Lawn Mower manufacturer with warehouse stock direct shipping, supports OEM/ODM, 2-year free after-sales, CE/EPA/Euro V/ISO9001 certified.
- **Factory-Direct Zero-Turn Mowers:** Complete Model Range & Quality-Backed After-Sales Support

Direct from the factory, complete range of models

Quality assurance, worry-free after-sales

· **Zero-Turn Radius Design:** 360° in-place rotation, eliminates repeated forward/backward maneuvers around trees, flower beds and fences; 15-position cutting height adjustment to suit different grass types and seasonal growth needs; optional grass catcher bag or mulching kit available, saving post-mowing cleanup work.

· **Efficient Heat Dissipation:** High-efficiency cooling system keeps engine temperature stable during long hours of heavy work, prevents overheating shutdown, and ensures continuous operation for large-area lawns.

PRODUCT DETAILS

LAWN MOWER SPECIFIC ENGINE

engines are optional, with strong power to improve work efficiency and ensure quality assurance.

STRENGTHEN THE CHASSIS

Disc-type cutter housing, blade
No exposure, safer for the staff

Powerful & Reliable Engine: Choose from our range of lawn mower specific engines, delivering robust power to boost work efficiency while guaranteeing top-tier quality assurance for long-term performance.

Reinforced Safety-First Chassis: Our strengthened chassis features a disc-type cutter housing that fully encloses the blade, eliminating exposure risks and ensuring maximum safety for operators during commercial and residential lawn maintenance.

CONTROL PANEL

The interface is simple and easy to understand, with complete functions at a glance

COMFORTABLE DRIVING

A time-saving and effortless ride-on lawnmower for easy lawn maintenance.

Intuitive Control Panel: Our ride-on lawn mower features a simple, easy-to-understand control panel with all functions clearly laid out at a glance, making operation seamless for any user.

Comfortable Driving Experience: Designed for time-saving and effortless lawn care, our zero-turn mower offers a smooth, comfortable ride that reduces operator fatigue during extended use.

Perfect for commercial landscapers and homeowners looking for efficient, user-friendly lawn maintenance equipment.

PRODUCT PICTURE

- **Easy to Clean & Anti-Grass Wrapping:** Anti-winding design on blades and deck reduces clogging; smooth inner deck surface allows quick and easy cleaning, minimizing maintenance time.
- **Night Operation Lighting System:** Bright LED headlights + side marker lights extend working hours to early morning or dusk, ensuring safe and efficient mowing even in low-light conditions, especially ideal for commercial lawn care services.

46 Inch Zero Turn Lawn Mower Operation Instructions

1. Check engine oil, fuel and cutting blade before use.
2. Sit on the seat and engage the safety switch.
3. Turn the ignition key to start the engine.
4. Adjust the cutting deck height as needed.
5. Push control levers forward to move forward.
6. Pull levers backward to move backward.
7. Use different lever positions to achieve zero turn.
8. Release both levers to stop the machine immediately.
9. Lower the deck and begin mowing the lawn.
10. After mowing, raise the deck and slow down.
11. Turn off the ignition key to stop the engine.
12. Clean grass clippings from the deck and inspect parts.

Hillside grassland

Golf course

Municipal greening

Orchard

Scenic spot

Roadside green belt

Powerful, maneuverable, and built for long-lasting efficiency, our zero-turn lawn tractor handles every lawn care scenario, from private estates and resort grounds to public parks and highway green belts. Designed to save time and reduce labor, it delivers professional-grade performance, making it the ideal investment for anyone needing reliable, high-speed lawn maintenance.

46 Inch Zero Turn Lawn Mower Safety & Operation Precautions

1. Read the operator's manual thoroughly before operation and master all controls.
2. Do not operate the mower under the influence of alcohol, drugs or fatigue to ensure operational safety.
3. Wear non-slip shoes, safety glasses, ear protection and gloves during operation.
4. Inspect the mower (deck, blades, guards) and check the ground for stones and obstacles before starting the engine.
5. Never leave a running mower unattended; turn off the engine and remove the key when leaving.
6. Do not allow people to stand near the mowing area to avoid injury from flying debris.
7. Do not operate on slopes exceeding the manufacturer's recommendation.

8. Do not mow in strong winds or extreme temperatures to protect equipment and ensure safety.
9. Keep body parts away from rotating blades and transmission during operation.
10. Check engine oil before use and change it as recommended.
11. Clean or replace dull/damaged blades regularly.
12. Clean the mowing deck after each use (turn off engine first).
13. Refuel in a well-ventilated area after the engine cools.
14. Stop the engine immediately if the mower malfunctions; do not operate faulty equipment.
15. Do proper maintenance before long-term storage.

About Us

Founded in **1995**, Yongkang Xinghu Power Machinery Co., Ltd. (**XINGHU**) . www.xinghupower.com is a leading Chinese manufacturer of high-performance **garden machinery, power tools, and industrial fans**. As a **national standard-setting unit for fan technology in China**, we bring decades of engineering expertise to deliver reliable, efficient, and compliant solutions for both landscaping and industrial ventilation needs.

OUR CERTIFICATE
Welcome to our website

WHY CHOOSE US
Welcome to our website

FACTORY
Our company has its own factory, which covers a wide area and has strong production capacity and convenient transportation

PRODUCT QUALITY
Our products have passed the international multi-quality inspection standards

OUR TEAM
Our company has professional production technicians and pre-sales customer service staff

TECHNOLOGY
We use advanced technology and production processes at home and abroad

We are a professional manufacturer with a complete production chain, offering high-quality products certified by **ISO, EPA, CE, EUR05, and GSG**. With our own factory, advanced production technology, and a dedicated team of technicians and pre-sales service staff, we ensure strict compliance with international multi-quality inspection standards. We are committed to delivering reliable products and efficient services to customers worldwide.

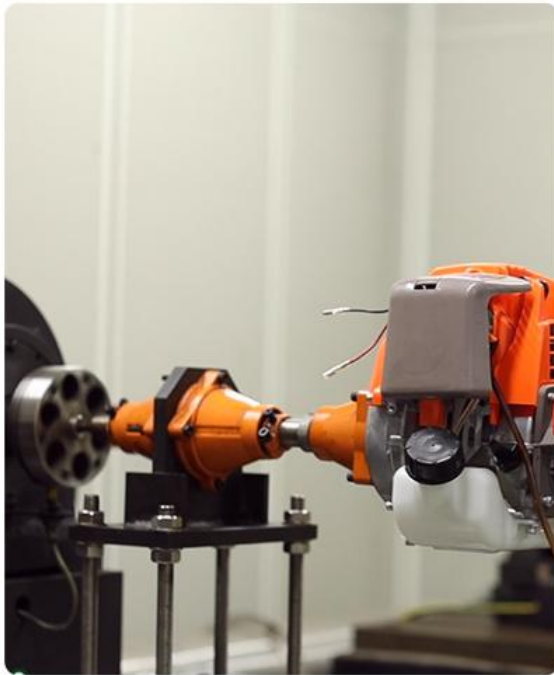

Our factory has a complete, standardized production and logistics system to ensure reliable delivery and consistent quality. Our facilities include:

- **Commissioning Workshop:** Full pre-delivery testing for every unit to guarantee performance.
- **Diemaking Shop:** In-house mold-making capability for precise production control.
- **Semi-finished & Finished Goods Warehouses:** Large-scale storage ensures stable inventory and fast order fulfillment.
- **Spare Parts Warehouse:** Well-managed spare parts supply to support after-sales service.

- **Professional Dispatch Process:** Efficient loading and logistics arrangements for on-time delivery worldwide.
From mold making to final dispatch, we strictly control every step to deliver high-quality products to our global customers.
-

//// Testing Laboratory ////

Professional testing laboratory with complete equipment, strict quality control to ensure stable and reliable products.

Our professional Testing Laboratory is equipped with complete testing equipment and systems, enabling strict quality control throughout the production process. Every product undergoes comprehensive performance and reliability testing before shipment, ensuring stable, consistent, and high-quality performance for every unit you receive.

In the Canton Fair

We regularly participate in the Canton Fair, the world's largest comprehensive trade show, to showcase our latest garden machinery and outdoor power equipment. At our booth, we demonstrate our full range of products, including zero-turn lawn mowers, brush cutters, and other gardening tools, to global buyers. It is also an important platform for us to communicate with customers face-to-face, understand market demands, and build long-term partnerships worldwide.

FAQ

Q: Are you a factory or trading company?

A: We are a large manufacturer of 30 years in power machinery. There are 4-floor workshop more than 100 staffs.

Q: What's your MOQ?

A: Normally our MOQ is 1 units per ZTR MOWER model.

Q: What's the delivery time?

A: Normally our lead time is 7-45 days when we get your confirmed order and deposit.

Q: Can I get free sample?

A: Usually sample cost and freight in on your account.
But we will return the sample cost on your official orders.

Q: How long for maintenance?

A: We offer 2 year warranty.
