Commercial-grade lawn mower, 10-position height adjustment, lightweight aluminum deck, 70L large grass catcher, ideal for residential & commercial lawn care.

Specification

Technical Parameters:

Product Name	21" Aluminum Deck Lawn Mower
Power Model	GXV160-SFC
Engine Type	Single-cylinder, air-cooled, 4-stroke
Walking Type	Push / Self-propelled
Displacement	163cc
Self-propelled Speed Gears	3-speed
Transmission Type	Shaft drive
Rotational Speed	3000r/min $\pm$ 200
Cutting Diameter	530mm/21"
Cutting Height	15-80mm
Handle Height Adjustment	10 gears

Oil Tank Capacity	0.65L
Grass Collection Method	Automatic Grass Collection
Fuel Tank Capacity	1.9L
Grass Collection Capacity	70L
Gross Weight	55.62kg
Net Weight	45.35kg
Packaging Case	Wooden Box
Package Size	92.5×58.5×45cm

High-power Lawn Mower: Engine options: Honda / Loncin / Zongshen / Xinghu

- Check engine oil and fuel before use. Use fresh unleaded gasoline.
- Adjust cutting height (15–80mm) with the 10-position lever.
- Attach the grass bag and clear stones/debris on the lawn.
- Press the safety lever, pull the starter rope to start the engine.

- Squeeze the drive lever to use 3-speed self-propelled function.
- Mow in straight lines; avoid steep slopes over 15°.
- Release the safety lever to stop the engine and blade immediately.
- After mowing, empty the grass bag and clean the mower deck.
- Regularly check the blade, air filter, and engine oil for maintenance.
- Fold the handle for easy storage in a dry, ventilated area.

Place of Origin	Jinhua, Zhejiang, China	Engine Model	GXV160-SFC

FAQ

Q: Is your 21-inch lawn mower suitable for European markets?

A: Yes, it is widely used in Germany, UK, France, Italy, Spain and other EU countries, matching local Gartenarbeit, Garden Care, Rasenmäher demands.

Q: What certifications do you have?

A: Our gas lawn mowers have CE, EPA, EUR05 certifications, fully compliant with EU and US safety & environmental standards.

Q: Do you accept OEM & ODM orders?

A: Yes, we support customized logo, color, packaging and configuration for global distributors.

Q: What engine do you use?

A: Equipped with reliable 4-stroke engines (Honda, Zongshen, Loncin, Xinghu Power available) for strong power, low fuel consumption, and quiet operation.

Q: Why choose aluminum deck?

A: Aluminum deck is lightweight, rustproof, durable and better for long-term outdoor garden work.

Q: What's your MOQ and delivery time?

A: Low MOQ for trial orders; fast delivery supported by our factory stock and mature logistics.

Q: Do you provide spare parts?

A: Full spare parts are available to ensure stable after-sales service for your market.

Q: Are you a factory or trading company?

A: We are a professional garden machinery manufacturer with 30 years of experience, supporting stable bulk supply.
